

VARUNTEJ REDDY N

Full Stack Developer  varuntej.online

 +91-8374967870 —  varuntejreddy03@gmail.com —  linkedin.com/in/nvaruntej —  github.com/varuntejreddy03

Summary

Full-stack developer with hands-on experience building and deploying production-grade web applications using React, Next.js, FastAPI, and AWS. Proven ability to architect AI-integrated systems, manage end-to-end deployment workflows, and deliver high-performance, responsive UIs. Passionate about solving real-world problems through scalable software.

Skills

Languages: JavaScript, TypeScript, Python, Java, SQL
Frontend: React, Next.js, Tailwind CSS, HTML5, CSS3
Backend: FastAPI, Node.js, REST APIs, JWT Authentication, Supabase
AI & Data: RAG Architecture, FAISS Vector Search, Gemini API, LLMs
Cloud & DevOps: AWS (EC2, S3, RDS), Docker, Git, GitHub Actions
Analytics: Google Analytics 4 (GA4), Lighthouse, SEO Optimization

Experience

Full Stack Web Development Intern

Feb 2026 – Present

StaffArc (Early-Stage Startup) – Remote

React, Next.js, Tailwind CSS

- Building production-ready frontend interfaces for **full-stack web applications** serving real business clients.
- Translating client requirements into responsive, pixel-perfect UIs using React and Tailwind CSS — with multiple projects simultaneously in active development.
- Working directly within a fast-moving startup environment, adapting quickly to codebase conventions and shipping features independently.

Web Developer & Digital Marketing Analyst

2025 – Present

Freelance – Hyderabad

React, Next.js, GA4

- Independently designed and delivered **3+ business websites** for local businesses and startups — handling everything from UI design to deployment.
- Achieved Lighthouse performance scores above **90/100** across all projects through optimized assets, lazy loading, and clean component architecture.
- Integrated Google Analytics 4 (GA4) to help clients track user behavior, traffic sources, and conversion goals post-launch.

Projects

MedRAG — AI Healthcare Diagnosis Copilot | *FastAPI, FAISS, Gemini API, Docker, AWS* 2025

- Built a RAG pipeline over a **4.4 GB FAISS vector index**, enabling context-aware medical Q&A with average query response time of **2–3 seconds**.
- Architected a secure FastAPI backend with JWT authentication and role-based access, ensuring safe handling of sensitive medical queries.
- Demonstrated end-to-end AI system design — from vector indexing and retrieval tuning to API integration — as a production-ready demo.

KMCE Cricket Portal — Tournament Management Platform | *React, Supabase, SQL*

2025

- Deployed live for KMCE’s inter-college cricket tournament, managing fixtures, scores, and stats for **10 teams** and **200+ registered players**.
- Built role-based access for admins, scorers, and viewers — enabling real-time match result tracking across all tournament rounds.
- Integrated Supabase real-time SQL to sync live scores, standings, and leaderboards instantly across all active sessions.

Certifications & Achievements

The Complete 2024 Web Development Bootcamp – Udemy: Completed full-stack training covering HTML, CSS, JavaScript, React, Node.js, and databases.

AWS Cloud Practitioner Essentials – AWS Training: Gained foundational knowledge of EC2, S3, RDS, and core cloud infrastructure.

Google Analytics 4 Certification – Skillshop: Certified in GA4 event tracking, funnel analysis, and conversion optimization.

Education

B.Tech – Computer Science Engineering

Expected 2027

Keshav Memorial College of Engineering, Hyderabad
